EASI-TRACE

FOR BREEDING
AND
THRIVE

(CHELATE)

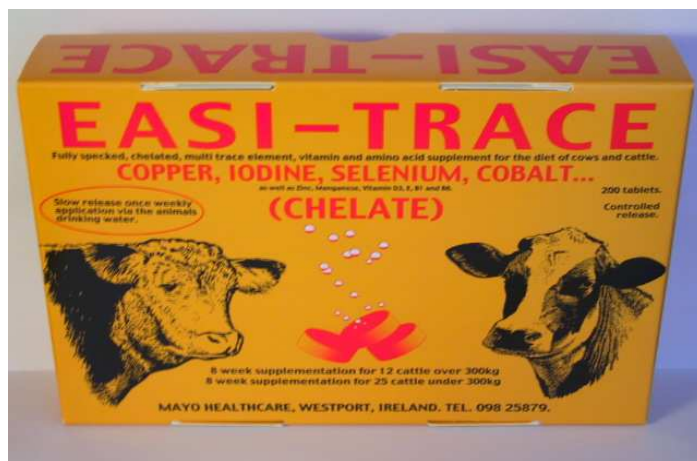

SLOW RELEASE TRACE ELEMENT CONCENTRATE

**CONTAINING COPPER, IODINE, SELENIUM & COBALT
AS WELL AS ZINC, MANGANESE & MULTI-VITAMINS**

DESCRIPTION

A broad spectrum, **CHELATED** slow release multi trace element, vitamin and amino acid tablet containing Copper, Iodine, Selenium, Cobalt, Zinc, Manganese and Multi-Vitamins.

Once weekly application via the animal's drinking water. The most effective method to supplement stock with trace elements is daily & orally. EASI-TRACE contains high levels of active chelated trace elements, multi vitamins and amino acids. Simple to use and highly effective, these slow release tablets provide stock with the correct daily dose in a once weekly application. Simply place tablets inside a net dispenser and hang inside drinking trough.

AVERAGE DAILY YIELD COMPARISONS (Trace-Elements)

	IODINE	SELENIUM	COBALT	COPPER	ZINC	MANGANESE
EASI-TRACE	60mg	5mg	3.5mg	115mg	57mg	71mg
ALL TRACE (H.I.)	19.4mg	2.7mg	2.8mg	177mg	145mg	90.2mg
TRACE SURE	19mg	2.75mg	2.75mg	0mg	0mg	0mg

DOSAGE

Two tablets per cow per week. When rotating cows between paddocks, just transfer the net dispenser to the new trough.

FEATURES

Continuous trace element release.
Contains multi vitamins & amino acids.
Take the labour and hassle out of supplementing cows and cattle with trace elements.
